SPARE SET OF ROTORS

Made for indoor flying fun

This mini 8"/200mm long RC helicopter is made of specialized, lightweight materials designed specifically for indoor use. It comes with a spare set of main rotor blades and rear rotor.

No setup, simply charge and take off

Comes fully constructed and ready to fly. Simply charge the battery and you're away with up to 8 minutes of flying time per charge! Charges off the remote control or USB port within 50-60 minutes.

Easy to control with realistic movement

The advanced 3 channel, infrared remote control with Gyro technology operates up/down, forward/backward and left/right turns giving you full control and a real-life helicopter motion.

Small, agile and lots of fun

It's super easy to fly and will have you performing death-defying turns, dives, stunts and precise rescues in no time! The trim controller enables you to fine-tune your flight.
