

AIR CRUISER

Powerful & agile indoor RC helicopter with precision controls

14+
FOR AGES

Cruising for fun

The Swann Air Cruiser is built for your flying exhilaration. It's powerful 27MHz radio frequency allows for flying over longer distances up to 100ft (30m) away. It's sturdy yet lightweight construction is tailor made for indoor use.

Complete control in your hands

The advanced 3.5 channel remote control operates precise 6-way up/down, forward/backward, left/right flight movements and the ability to vary flight speed via the tail rotor control. Once you've got the maneuvering down pat, get ready for full-on flying fun.

Easy to fly & tons of fun

The Air Cruiser is amazingly easy to fly with Swann's Easy-Fly Gyro technology assisting you to self-stabilize the flight level and keep you in control. In no time at all you will be performing death-defying turns, dives and stunts that will blow you away!

Simple to setup & charge

It's easy to get started. Simply add 4 x alkaline AA batteries to the remote control then use the included cables to charge the chopper for around 45 minutes from AC mains power. Once charged, you're up and away with up to 6-8 minutes full-on flying time per charge!
