Ready for battle

The Swann Missile Strike is fully constructed and ready for precise indoor flying with authentic-looking military styling, 2 built-in missile launchers, 6 missiles and 2 military targets. Identify your target, lock it on and fire!

Complete control

The advanced 3.5 channel infrared control operates up/down, forward/backward, left/right flight movements and is self-stabilizing for precision control. Once you've got the maneuvering down pat, get ready to blast your chosen target with left and right missile launching control at your finger tips.

Simple to setup & charge

It's easy to fly. Simply add 6 x alkaline AA batteries to the remote control then use the included cables to charge the chopper for 45-60 minutes from the remote control or your PC's USB port. Once charged, you're up and away with up to 8 minutes aerial assault time per charge!

Easy to fly & tons of fun!

The Missile Strike is amazingly easy to fly with Swann's Easy-Fly Gyro technology assisting you to self-stabilize the flight level and keep you in control. In no time at all you will be performing death-defying turns, dives and stunts that will blow you away!
