### Distance to Subject (DTS)\*

Distance for camera to see a full person

3.6mm lens

8.53ft (2.6m)

\*DTS: Refers to the ideal "Distance To Subject" from a camera viewing a 6ft/1.8m tall person from head to toe on a standard TV. This assumes the camera is viewing from 3ft/0.9m off the ground.

Pictures used on brochure are for illustration purposes only.
