Fish Eye 150° Lens

Increases The Viewing Area to 150°

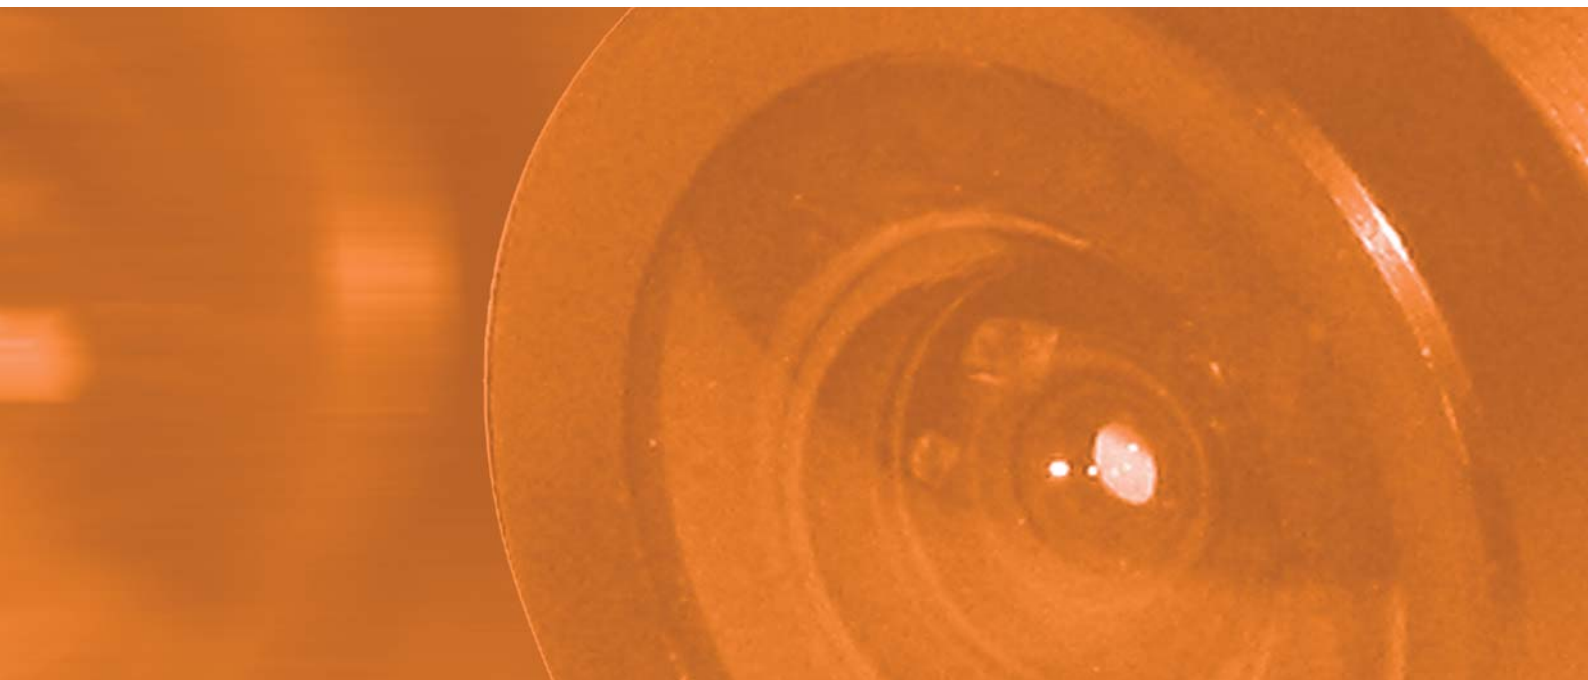

The Swann Fish Eye Lens will increase the viewable angle of your miniature video camera up to 150 degrees. Designed to fit 12mm 'board' and miniature cameras, the Swann Fish Eye Lens is ideally used with the Swann TV Observation System, DIY Security Cam, SecuraCam, Audio SpyCam and more.

Use the lens to see more than ever before including the whole office, an entire car park, the showroom floor and more.

Telephoto & Wide Angle lenses also available.

Instructions:

- 12mm 'board' & miniature cameras: unscrew locking screw on lens barrel (if applicable) then unscrew the standard lens from your security camera and replace it with the Fish Eye lens.
