AU/NZ Smart Plug

Thank you for choosing the **Smart Plug**. The Smart Plug is a ZigBee® power point outlet that can be used to remotely control any connected electrical appliance from your smartphone, tablet or computer.

Pairing the Smart Plug

- 1 From the Smart Home web portal, click or tap **My Settings > Smart Plugs > add device**. The System Setup screen is displayed and your Smart DVR/Hub automatically goes into pairing mode. *Note: You can skip this step if the System Setup screen is already displayed (during the Smart DVR/Hub registration process, or when you are setting up other smart home accessories).*
- 2 Insert the Smart Plug into a power outlet. For initial setup, it is recommended you connect the Smart Plug within a few feet of the Smart DVR/Hub. Pairing takes place automatically and usually within 30 seconds. When pairing is complete, the Smart Plug network LED will turn solid.
- 3 Follow the on-screen instructions to complete the setup.

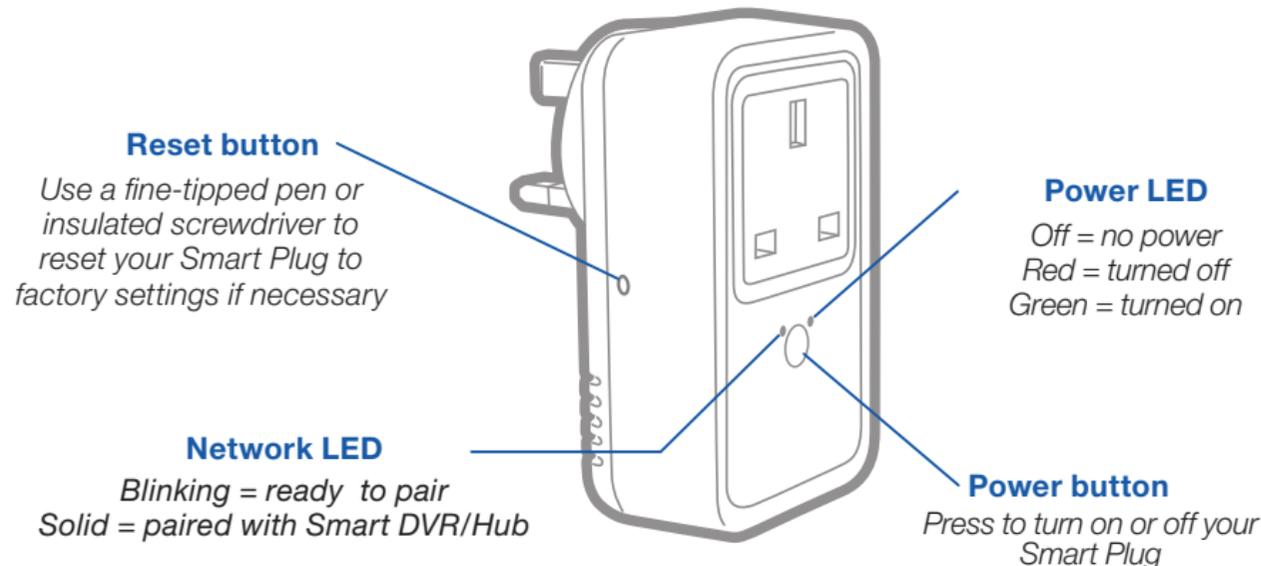

Problems pairing your Smart Plug? Try resetting it.

1. Unplug the Smart Plug from the power outlet.
2. Press and hold the **Reset** button, and then plug the Smart Plug into the power outlet at the same time. When the network LED blinks rapidly, release the **Reset** button.
3. Unplug and plug the Smart Plug back in. The Smart Plug is now ready to pair again.

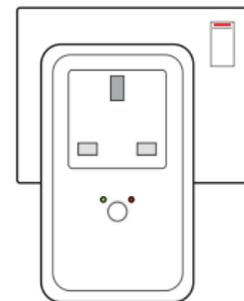

UK Smart Plug

Thank you for choosing the **Smart Plug**. The Smart Plug is a ZigBee® power point outlet that can be used to remotely control any connected electrical appliance from your smartphone, tablet or computer.

Pairing the Smart Plug

- 1 From the Smart Home web portal, click or tap **My Settings > Smart Plugs > add device**. The System Setup screen is displayed and your Smart DVR/Hub automatically goes into pairing mode. *Note: You can skip this step if the System Setup screen is already displayed (during the Smart DVR/Hub registration process, or when you are setting up other smart home accessories).*
- 2 Insert the Smart Plug into a power outlet. For initial setup, it is recommended you connect the Smart Plug within a few feet of the Smart DVR/Hub. Pairing takes place automatically and usually within 30 seconds. When pairing is complete, the Smart Plug network LED will turn solid.
- 3 Follow the on-screen instructions to complete the setup.

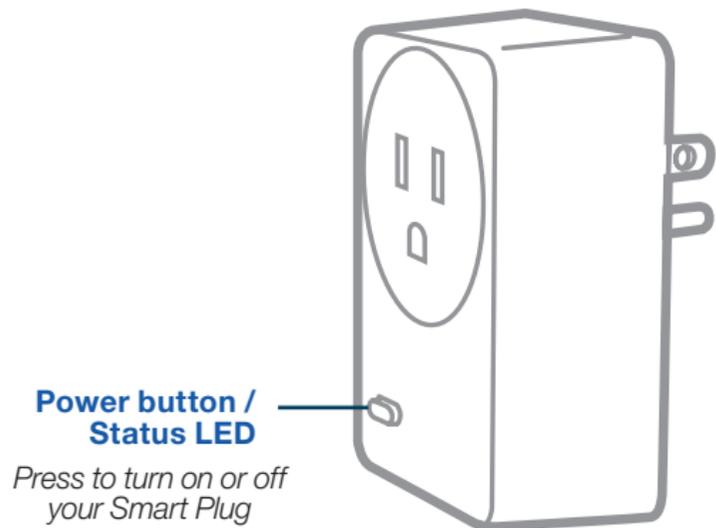

Problems pairing your Smart Plug? Try resetting it.

1. Unplug the Smart Plug from the power outlet.
2. Press and hold the **Reset** button, and then plug the Smart Plug into the power outlet at the same time. When the network indicator light blinks rapidly, release the **Reset** button.
3. Unplug and plug the Smart Plug back in. The Smart Plug is now ready to pair again.

US/CA Smart Plug

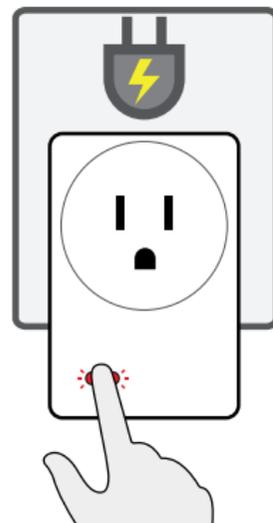

Thank you for choosing the **Smart Plug**. The **Smart Plug** is a ZigBee® power point outlet that can be used to remotely control any connected electrical appliance from your smartphone, tablet or computer.

Pairing the Smart Plug

- 1 From the Smart Home web portal, click or tap **My Settings > Smart Plugs > add device**. The System Setup screen is displayed and your Smart DVR/Hub automatically goes into pairing mode. *Note: You can skip this step if the System Setup screen is already displayed (during the Smart DVR/Hub registration process, or when you are setting up other smart home accessories).*
- 2 Insert the Smart Plug into a power outlet. For initial setup, it is recommended you connect the Smart Plug within a few feet of the Smart DVR/Hub.
- 3 Press and hold the **Power** button on the Smart Plug until the status LED blinks once. When pairing is complete, the status LED blinks twice.
- 4 Follow the on-screen instructions to complete the setup.

? Problems pairing your Smart Plug?
Try pairing the Smart Plug again by repeating step 3.

Limited Warranty Terms & Conditions

Swann Communications warrants this product against defects in workmanship and material for a period of one (1) year from its original purchase date. You must present your receipt as proof of date of purchase for warranty validation. Any unit which proves defective during the stated period will be repaired without charge for parts or labour or replaced at the sole discretion of Swann. The end user is responsible for all freight charges incurred to send the product to Swann's repair centres. The end user is responsible for all shipping costs incurred when shipping from and to any country other than the country of origin.

The warranty does not cover any incidental, accidental or consequential damages arising from the use of or the inability to use this product. Any costs associated with the fitting or removal of this product by a tradesman or other person or any other costs associated with its use are the responsibility of the end user. This warranty applies to the original purchaser of the product only and is not transferable to any third party. Unauthorized end user or third party modifications to any component or evidence of misuse or abuse of the device will render all warranties void. By law some countries do not allow limitations on certain exclusions in this warranty. Where applicable by local laws, regulations and legal rights will take precedence.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

CE marking on this product represents the product is in compliance with all directives that are applicable to it.

Correct Disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environment safe recycling.
