with 4 Channel Receiver

- Tiny camera can be concealed almost anywhere
- Improved range & clear color video images
- Receiver can be easily connected to DVR, VCR, TV, LCD Monitor or PC (With Capture Card)
- Camera totally portable by connecting 9V Battery

MicroCam II

Wireless Security Camera

with 4 Channel Receiver

Ultimate in miniature surveillance technology available. The 2.4GHz transmission gives extended range, and the clarity and picture quality have been enhanced for even better full color images.

The extremely small camera is portable and easily concealed. Position it in the babies room, use it on a pole to check for leaves in your guttering, or look for vermin inside small cavities. The tiny MicroCam II will transmit up to 100m/328ft*. It can be used with a 9V battery or the mains power adaptor included in the kit.

* Actual transmission range may vary according to location, interference & building construction
