VIEW & CONTROL ON SMARTPHONE

RECORDS TO MICRO SD CARD

2-WAY AUDIO

NIGHT VISION UP TO 50FT/15M

The camera that's always keeping an eye on things

- A powerful Wi-Fi security camera that allows you to see & hear what's happening with the ability to remotely control pan (left & right) & tilt (up & down) movements remotely via your Smartphone, to always have the best view of what's happening
- Install in minutes. Just unbox it, power it, connect it to your Wi-Fi network & pair it with the AlwaysSafe app for instant Full HD 1080p live view & recordings
- Small & discreet, this indoor camera can be installed anywhere inside your home or business, either standing on a surface or up on a wall or ceiling with the included mount
- Install as many as you want for full protection, & conveniently view & control all cameras with the AlwaysSafe app from wherever you are in the world
- Microphone & speaker gives you two-way audio so that you hear noises and possibly identify burglars by their voice, giving you an extra layer of evidence to the video footage
- Wide 80° viewing angle for ample view. On the top of that, the camera can pan 355° horizontally & tilt up and down 105° so that you can have a full view of what's happening by controlling it directly from your phone
- Powerful infrared night vision up to 50ft (15m) is automatically triggered in low light, allowing you to see crisp black & white images even if it's pitch black, for 24/7 protection
- Dual band wireless signal supports both 2.4 GHz & the latest and much faster 5 GHz, or use the Ethernet port for hardwired internet connection to cover distances the Wi-Fi signal can't reach
